Summary of Complaint:

Department received a complaint reporting concerns about the safety of the childcare environment. The concerns were specifically linked to one of the young adult household members.

Rule Basis and Findings of Complaints:

110.5(1) Conditions in the home are safe, sanitary, and free of hazards.

Unannounced and full spot check conducted on 1/5/15. The individual identified on the complaint is residing in the home, has always been properly identified on applications, and has completed appropriate background checks.

The remaining sections from the checklist were reviewed and no compliance problems were identified.

Resolution and Action Required:

I observed five happy and content children in the care of provider Sharon Fiscus. I observed provider has appropriately reported all household members, both past and present. I observed all current household members have passed the appropriate background checks. I did review the need to report any convictions on a household member to the Registration Unit within 10 days should that be a possibility in the future. I also shared the contact phone number for the Registration Unit. Provider Sharon Fiscus was in compliance with all categories from the annual checklist.

I have no preponderance of evidence to indicate current non-compliance regarding the safety of the childcare environment.
